

Mini Beacons: Indoor positioning for Indicare

Accurate indoor positioning and out-of-home exit alarms

- Enables indoor positioning
- Increases battery life of wristwatch
- Easy peel n'stick installation
- Mains power version available
- Long battery life
- Embedded GPS

The Halo Indicare Mini Beacons allow Indicare to know where it is indoors.

Like many devices today, Indicare is equipped with GPS. However, GPS does not work indoors. Indicare was designed to offer seamless positioning indoors. Mini Beacons make this possible.

GPS does not work indoors. Indicare Mini beacons do!

Being 'beacon aware', your Indicare wristwatch detects registered beacons nearby and reports this to our monitoring centre. Should you trigger an alarm we are able to send responders to the very room you are in.

Mini beacons also increase battery life of the Indicare wristwatch as they allow Indicare to turn off GPS while indoors. This increases battery life.

Indicare is a highly versatile system with too many variables to list. Therefore, we highly recommend discussing your needs with a Halo Group sales professional who can tailor a solution to fit your precise needs.

Mini Beacons: Indoor positioning for Indicare

Key features are:

- Easy to install
- Extend beacon coverage to whole property
- Enables room by room statistics
- Optimises S1 battery life indoors
- Long battery life
- Waterproof
- Easily replaceable battery

Mini beacon	Communication	BLE 4.0, class 2, 2.4 GHz
	Broadcasting	300 - 1000 ms interval
	Beacon coverage	Several beacons can be installed in the same room
	Low power notification	Warning to server via Indicare wristwatch
	Area coding	Up to 6 definable areas
Mains version	Power	Battery or 100 - 240V, 50 - 60 Hz
	Range	Up to 10 SqM
	Operation	Indoor use, -20°C – +60°C
	Waterproof	No
	Dimensions (mains version)	80 x 42 x 24 mm
	Weight	45 gr
	Certification	CE
Battery version	Power source	CR2477 battery, 3.0V, 1000 mAh, user replaceable
	Battery life	Up to 24 months
	Range	Range Up to 10 metres
	Colours	Black or white enclosure
	Dimensions	43 x 43 x 14 mm
	Weight	30 gr
	Waterproof	Splash-proof
	Operation	Indoor use, -20°C – +60°C
	Installation	Peel and stick adhesive tape (provided)
		Preferred installation location: centre of the room in the ceiling
	Certification	CE, FC, RoHS
