

# BT-15

## Longlife Asset Tracker

- ✓ Battery efficient GPS asset-tracker
- ✓ Geo Fencing
- ✓ Ruggedised, waterproof housing

The affordable, easy way  
to keep tabs on your assets

### *Key Benefits*

**Simple:** Halo BT-15 comes out of the box ready-to-use and already connected to the internet. It doesn't require professional installation. A simple web interface allows you to access the data collected by your tracker.

**Long Battery life:** On just three AAA batteries the BT-15 can last up to three years. Battery life varies based on mode and usage, see table below.

**Strong & Secure:** Halo BT-15 is designed to withstand harsh conditions and is housed in a water-resistant case. The network has built in redundancy and security too, so it's tough on all fronts.

## Device Settings

‘Outdoor’ and ‘Concealed’ settings are available to ensure the Halo BT-15 is optimised for the needs of each customer. Outdoor mode, when the device has a clear view of the sky, allows for longest battery life.

GPS positions per day	Outdoor Mode	Concealed Mode
6 GPS/day	3-year battery	2-year battery
12 GPS/day	2-year battery	1.5-year battery
24 GPS/day	1-year battery	9-month battery

\*Battery life based on settings and installation

## How it works

- ✓ The device comes out of the box already enabled.
- ✓ Halo BT-15 wakes up when it detects movement.
- ✓ When the device hasn’t detected movement for five minutes, it sends a ‘Stopped’ message and goes to sleep.
- ✓ While in motion, GPS co-ordinates are recorded every 20 minutes and sent at the next 10-second stop.

## Simple user interface

- ✓ Effectively monitor your assets
- ✓ Access current and historical data on location, activity, and more
- ✓ See where your device has travelled via map
- ✓ Track multiple devices from one central account
- ✓ Create multiple users with different permission level settings
- ✓ Check device battery and status information to optimise settings
- ✓ Set up alerts based on user-defined rules
- ✓ Remotely configure device settings
